

## First RAS Workshop on Robotics on 12th April, 2015

IEEE RAS Uttar Pradesh Section presents the First RAS Workshop on Robotics on 12th April 2015, specifically conducted for young technical minds and robotics enthusiasts of all disciplines from Institutes across Allahabad. Participants will learn the basic concepts, common engineering practices, gain component knowledge and study logic in design and various machine building concepts.

The workshop would be divided into 2 phases, the lecture phase where eminent robotics experts will give talks on robotics and the hands-on phase where the participants will be exposed to the robotics programming and designing procedures in the Robotics & AI Laboratory of the Institute.
